Its dimensions are the standard futon size, hence allowing you to pick the futon mattress of your choice. Style Futon Frame To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Please try again later. Jessica 5.0 out of 5 stars We needed something quick and inexpensive as we had a lot of family and friends visiting this summer. So far, great investment. Attached a photo but the mattress was a separate purchase. You only get the frame. Didn't realize that it had A LOT of PARTS!! Thought I had bitten off more than I could chew but felt very good when I got it together and it worked!! BTW I'm a 70 yr old woman I attempted to return or replace and was directed to DHP customer service, which is why I'm writing this. I rarely give 1 star reviews but their customer service was awful. It was apparent, despite them being wrong, they'd make it as difficult as possible to not have to do anything. Which they also refused to replace the item, but instead sent two replacement parts which were half the parts needed to fix the frame. I had to go back and forth with their customer service at least 20 times in email. They'd ask for information, I'd send it, then they'd reask for the previous information I had already sent. It was bad. The instructions were bad, the materials were bad, the frame itself is bad. Half of the bolts they give you are about as thin as a toothpick and break almost immediately as soon as you tighten them with any amount of force. I had to go to Home Depot down the street to get new nuts and bolts, because about 15 out of 20 of them broke

immediately. Once you open the futon, its nearly impossible to close with only one person. You get what you are paying for. You can avoid this circumstance by buying extra washers elsewhere and using a washer on every bolt. <http://cephedanismani.com/images/pages/breadboard-user-manual.xml>

Its too late for me at this point, and Im living with it. To be fair, you get a lot for the price here. One thing I really like about this design is how small of a space it can pack down into. Youll understand if you buy it, the package is deceptively tiny, giving confidence it can be easily moved in a car later on after its broken back down, if needed. I also bought the mattress specifically designed for this frame, which is nice looking. However, once the mattress is on, its near impossible to fold into a seat again. Im hoping if I leave it folded for a few days it will work easier, but Im not confident. The instructions leave alot to be desired as well, as its unclear on most pages whether youre working on the back or the front of the frame. Directions were easy to follow. Screws, however, would NOT fit the holes for part of it. Im waiting for replacement parts that hopefully will work. Would recommend spending extra money and getting something higher quality. It is very easy to put together. Price of product explains cheap screws. Not happy that it has deteriorated so quickly. If you want NextDay, we can save the other items for later. Order by, and we can deliver your NextDay items by. You won't get NextDay delivery on this order because your cart contains items that aren't "NextDay eligible". In your cart, save the other items for later in order to get NextDay delivery. Oops! There was a problem with saving your items for later. You can go to cart and save for later there. Futon mattress not included. About This Item We aim to show you accurate product information. Manufacturers, See our disclaimer Features DHPs Vermont futon frame converts easily from sofa to sleeper. Its classic black metal finish makes it easy to accessorize and will complement many styles of home decor. Futon mattress not included. Classic lowseating design with rounded tubed arms. Multifunctional design. Easily converts from sofa to full size bed.

The addition of a Walmart Protection Plan adds extra protection from the date of purchase. Walmart Protection Plans cover the total cost of repair, or replacement, for products, as well as covering delivery charges for the exchange. You can view your Walmart Protection Plan after your purchase in the Walmart Protection Plan Hub. We used this frame for a full sized memory foam mattress not a futon mattress, and it actually works well as a bed or couch. The assembly was easy and extra hardware was included. I am really pleased with the purchase and feel it was a great buy for the price. See more VS Most helpful negative review 1 customers found this helpful Average Rating 2.0 out of 5 stars YOU may as well be sitting on the floor This is my 4th futon and I must say that this is the first one that I bought that turned out to be designed and made for little people. It is like 10 inches off the floor wherein most couches and futons are closer to 16 inches or so. If you are getting up in years, it can be a pain literally to get out of. See more VS Most helpful positive review Average Rating 5.0 out of 5 stars Great buy. Yes 0 No 0 Report Average Rating 5.0 out of 5 stars Inexpensive, High Quality Frame October 23, 2017 Verified purchase I have been looking for a futon to place in our guest room and didnt want to spend a lot of money but didnt want anything cheap either. Metal seems pretty solid and construction easy enough. Also the little wrench provided with the nuts and bolts was very helpful,

thanks for that. See more Reviewed by Reyhan Reyhan Written by a hayneedle.com customer. Helpful Yes 0 No 0 Report Average Rating 4.0 out of 5 stars Futon January 2, 2017 Verified purchase Its a good sturdy product. However, the instructions could have been clearer and it takes two people to convert it to a bed or sofa. See more Reviewed by Renee Renee Written by a hayneedle.com customer. Helpful Yes 1 No 0 Report Average Rating 3.0 out of 5 stars Affordable and works October 3, 2016 Verified purchase It took me about 23 hours to assemble. Only thing that really disrupted the process was that one of the pipes were bent so I couldnt but the connector pipe through. We had to bend the metal ourselves to force the piece in!! Then make sure you have a philips screwdriver. Otherwise, it works well and is comfortable. See more Reviewed by Leah Leah Written by a hayneedle.com customer. Helpful Yes 0 No 0 Report Average Rating 3.0 out of 5 stars I would not buy again December 24, 2017 Verified purchase I bought this as a Christmas gift so it hasnt been used yet. The reason it got 3 stars is because the package arrived torn up. The frame had some dents in it. There was a piece that was bent in but my husband was able to pull it out to make it fit. We had 3 screws that broke off while we were screwing them in. We had to go out and buy more to finish putting it together. See more Reviewed by Susan Susan Written by a hayneedle.com customer. Helpful Yes 0 No 0 Report Average Rating 3.0 out of 5 stars I would buy it again.

Yes 1 No 0 Report Average Rating 2.0 out of 5 stars Futon frame June 30, 2015 Verified purchase DHP needs to inspect their product before sending the hardware states its all their but we had no instructions and two bolts and nuts short had to go to the hardware store to find replacements after moving all day so our son would have a bed See more Reviewed by Lashonda Lashonda Written by a hayneedle.com customer. Helpful Yes 1 No 0 Report Average Rating 1.0 out of 5 stars Do NOT waste your time or money!! July 27, 2020 If I could put zero stars, I would. This is the absolute worst product ever. We purchased the futon frame that came with the mattress for my stepson after we had literally just spent the last bit of our money to move into our new home. After getting it home, we attempted to put it together. 75% of the holes werent even cleaned out so none of the screws would go in. We fought for hours until we gave up and had to go purchase a battery powered drill to finish putting the stupid thing together. It was used as a couch for about a week and a half. After that, it was basically useless. The hinges wouldnt lock, the frame was bent.Dont waste your money on this crap. See more Reviewed by jw jw Helpful. They form the base on which the mattress is placed. The base may be made of wood, metal or metal and wood. There are various types of mechanisms that make futons into multipurpose, versatile and spacesaving pieces of furniture. This backrest can be folded down to make a bed.They fold up into a love seat or can be pulled out to make a bed. The advantage of this frame is that a thicker mattress can be used on these frames. These three sections can be arranged to form a lounge, recliner, flatbed or a couch. A thin and malleable mattress is laid over this frame so that it can be folded back properly. The mattress folds over the back of the frame or over itself to make the seat of the futon. It has a futon beneath a bunk bed. These are the ultimate spacesaving piece of furniture. The futon may be a bifold, loveseat or a trifold type. While the size of the bunk bed overhead may be a twin, twin XL, full or queen size. Usually, it is a twin size as such arrangements are used for children's rooms. To get the most of your futon and keep it functional learn how to open and fold it properly. This way you do not pull wrong parts and end up frustrated. Always pull the futon away from the walls before attempting to open them. Most of the models can be folded by reversing the steps used to unfold the futon frame. Now fold is to make a seat and a backrest. As there are two parts or sides it is called a "bi" or twofold. When pulled out the two sides lie flat next to each other horizontally to make a bed. When lifted and pushed in the two sides move on a lever mechanism and fold up to make an upright back and a seat.Stand near the centre and face the futon. Grab the bar or the base or the handles provides on the seat section of the frame. Raise it to unlatch the two sections and then pull towards yourself and step back.

Lower the section in your hands till it is flat. Then grab the bar, lift up and push inwards towards the base of the frame. It should glide to a closed position. If there is a latch, lock it. The three parts fold up like an accordion. One leg of the Z forms the backrest, the slanting line forms the seat and the lower line forms the ottoman or the leg rest. Lift the seat of the futon to unlock this hidden deck. Unfold the mattress that sits like an accordion folded into three to lay on the lower section. When you lift the seat to pull down the third deck, the legs may swing out automatically. In some models, you may have to adjust them and the mattress. The backrest may have to be pushed down to make a flatbed. Some models may have rungs that brace the backrest. Simply raise the back to release these braces and adjust the recline. You can adjust these three parts of the futon frame to make a seat, recliner or a bed. Pull up the backrest in the upright position. Adjust the braces and rungs at the preferred level. Some backrests have a slide and lock mechanism that is engaged using the pull and push movement. Next, tuck the third deck beneath the main seat and lift the seat so it slides into place. Now fold the mattress such that its backrest and seat are covered. Tuck the extra bit of the mattress under the seating. They usually have two pieces of the mattress. When the futon is folded up into a couch the mattress folds lie one over the other. A loveseat can have a bottom section to use as a footrest in the reclining position. They can be folded up or hidden if not in use. They can be pulled out from the hidden niche and the back can be pushed to recline or flatten out. It can be

pulled out to make the bottom half of the futon bed. Simply lift the seat and the third deck unfolds. Pull out this deck and adjust its legs. Usually, loveseats are fitted with two mattresses. A third smaller mattress is fitted on the third portion for the legs.

Simply press down the back of the loveseat and it unfolds. Most models fold and unfold by this pushup and pulldown movement. Simply push the backrest into an upright position where it locks into place. If there are rungs then adjust them. Remove the small mattress from the footrest. Lift the seat, fold the third deck into its hiding place. If the futon has adjustable legs then ensure they are folded into the deck before pushing it under the seat. Wood and metal are affordable, reliable and durable. The base may be in the form of slats or mesh to support the mattress. There may be handles welded to the edge of the frame that help open and close the frame. Metal frames are lighter than wooden ones. But wooden frames too may differ as some may be made of light pinewood while others may be made of hardwood. Plastic, chrome, steel or wooden legs are used. Various upholstery styles are used to blend with the materials to make a highly functional product that is aesthetically pleasing. They ship the furniture in parts with the requisite instructions, hardware and tools. This bifold futon frame has a wooden backrest and seat. There are wooden slats crisscrossing these frames. There are woven nylon ribbons stapled at the two ends on the backrest and seat. The two halves of the back and seat swing out to make a bed. When pulled up and pushed in the two halves swing upright to make a couch. The futon frame has fixed armrests which double as headboards when unfolded. The armrest extends into four sturdy legs. There is a clickclack mechanism of cylinders or pegs that slide in and out of notches to fix the futon in the upright and flat positions. This queensized bifold futon frame can be used as a bed, couch and a lounger. In the sofa position, it is 85 inches long, 37 inches wide and 36 inches high. In a bed position, it is 85 inches long, 60 inches wide and 22 inches high. All the hardware and tools required for the assembly are in the box along with the instructions.

The frame is marked with the dots to match the parts. All you have to do is align them and screw them together. The frame has movable parts which have a durable mechanics and sturdy construction that will support 550 pounds of weight. There is a swing out leg on the backrest that swings out when the futon frame is in the bed position. The elegant espresso polish gives it an elegant finish. The brand makes futons using Indonesian hardwood. The wood was carefully selected to bring you excellent longlasting products. It is a mix of modern and traditional design. The Phoenix is a reliable, longlasting piece of furniture with a base comprising of a sturdy frame. The lower half of the armrest is a solid plank and while the upper half has a liftup tray on hinges. The tray is supported by foldin angles. When the tray is dropped the armrest becomes the part of the solid armrest. The frame of the backrest and seat are made of solid hardwood and fitted with slats. There are two nylon ribbons running along the two sides in both the halves. These help in assembling the futon frame. Simply stretch out the ribbon on the floor and then fit in the slats in the frame and tighten the screws. The same procedure works for both the backrest and seat. Next, construct the armrests and stretchers. Then open the two flaps or halves and fit the structure into the loosely erected armrests and tighten the screws. When you tighten the screws the pegs in the frame fit into the slides on the two sides. Now pick up the backrest to check if it moves smoothly. Your futon frame with extensible trays is ready. To turn the couch into a bed, pull up the base or seat upwards gently for the backrest to drop. The Phoenix has a tray extension that can be used to keep your drink and snacks, phone and laptop. The bed weighs 155 pounds. This simple and rustic frame brings simple, sturdy and tough functionality into your home. You will need two people and an Allen wrench to put your Aspen frame together.

Place some paper, corrugated sheets or carpet on the floor before you begin to assemble the futon. This will prevent the floor from being damaged or scratched. To assemble the backrest and seat bring these colour coded parts together. Lay the parts with matching coloured dots next to each

other on the floor. The red dots will match with the red dots and the orange with the orange on the slats. Now loosely screw the parts together. After you have followed these instructions you will see that your futon frame is coming together like a jigsaw puzzle. All the hardware such as screws, pins, caps and Allen wrench are provided. After all the parts are laid screw all the parts loosely together by hand. Then fit the four nylon guides with the given pins. After you have screwed the deck together fit in the wooden pegs on all 4 corners. Next, tighten all the bolts. Repeat this process you did with the backrest with the seat. Then screw the two halves using a screw and fit the wooden pegs. Now fit the aspen arms with the screws and note that the Lshaped and curves grooves are on the inner side. Insert the wooden dowels into the stretchers and fit them into the inner side of the armrests. Now fit these wooden pegs into the Lshaped and curved groove on the armrest while keeping the two halves in an upright position. After the two flaps are fit into the frame to check them for movement. The futon weighs 70 pounds. This day bed is easy to assemble and perfect for sitting, sleeping or lounging. The frame and legs are made of metal. The base is powdercoated in black paint. This large armrest rises on a hinge and lock into place like the backrest. The backrest and armrests are of the same height. One mattress will fit the seat of the futon. It will fold up and rise along with the armrests. Pillows are required for the backrest. You can use two pillows or a single long one. The frame is fitted with long slats overlaid a longitudinal metal bar.

All the tools, instructions and parts arrive at your doorstep in a single large box. It can function as a twoseater couch. One of the armrests can be lowered to make a lounger or both can be lowered to make a day bed that can accommodate a 6 feet tall person. In the sofa configuration, the seat is 45 inches long, the back is 36 inches high and armrest is 21 inches off the floor. The seat is 16 inches off the floor. In the lounger configuration where one of the armrests is lowered. The seat is 62 inches long, 32 inches deep. In the bed configuration, the sleeping surface is 76 inches long and 31 inches deep. The store provides exceptional quality products and prompt customer service. Their futon frames undergo extensive testing for fitment, strength and durability. They are built from hardwood and constructed to last. You can adjust the futon frame through 4 sitting positions, 8 lounging positions and one flat position as a bed. The backrest tilts back to offer a perfect degree of comfort. The futon frame is built from hardwood sourced from sustainable forest. The fine grain hardwood used to build the futon will last you decades. It is constructed expertly and coated with a clear coat that accentuates the grain while protecting its beauty. The clear coat of polish also protects it from spills and stains. The futon has flushed end caps that eliminate the potential hazard protruding ends may present. The piece is easy to transport and perfect for your recreation room, man cave, bedroom, living room, guest room or vacation home. You can even take it glamping and RVing. You can enjoy sleeping, lounging, reclining and sitting on this frame. As a lounger, it is 57 inches long, 56 inches wide and 32.75 inches high at the backrest. As a couch, it is 36.75 inches long, 56 inches wide and 32.75 inches high. The frame is 66 pounds and carries a weight of 250 pounds. The futon frame carries a 5year warranty.

They are importers and manufacturers of highquality readytoassemble furniture. Nadine is a perfect solution for busy professionals who need a small space or minimalistic solution for their homes and offices. The backrest and seat are hinged to each other. They move along a lever mechanism that helps open and close the futon frame. The movable backrest and base are fitted onto a sturdy rectangular base made of metal. The fixed armrests function as headboards when the futon is fully open in a bed position. The frame of the backrest and the seat are slatted with metal wires that support the mattress. The Frame is built such that it can if a single mattress lengthwise. Or it can be fitted with two halves of a mattress that would come to lie next to each other when unfolded. It can accommodate 6 and 8inch mattresses. The seat is fitted with retention brackets that prevent the mattress from slipping. It is a sturdy metal frame that will last you for decades. The futon converts from a couch to a sleeper in seconds. The frame has a standard bifold configuration and functions. The frame has a low centre of gravity thus very stable. It is easy to maintain, simply wipe down with

a dusting cloth. This is an ideal piece of furniture for dormitories, studio apartments, home offices, etc. It can be assembled easily using the tools in the box. It is supported by a oneyear warranty. They are specialist of designer beds, bar and counter stools, daybeds, casual dining, etc. This handsome frame has a contemporary feel and clean graceful lines. The futon has a backrest and seat mounted on a sliding lever that swings the futon into a seat and bed position. This bifold movable pallet is fitted onto two armrests that function as headboards. The seat half of the futon has retaining bars or handles. There is a footrest at the centrefront of the frame. The futon frame arrives in a box and can be screwed together using the instruction manual and hardware.

The hardware consists of screws, Allen key, etc. The elegant lines bring sophistication to your minimalistic living space. This spacesaving piece is sturdy and versatile. The tough bifold steel frame and reliable construction will serve you for years. The brackets welded to the front of the seat hold the mattress in place. Besides they help pull and push the futon into the bed or couch. The futon is 59.4 pounds in weight with a carrying capacity of 250 pounds. It is easy to assemble using the accompanying tools and hardware. The frame is supported by a 1year warranty. They make highquality furniture using local resources made by local artisans. The entire bifold pallet is fitted on to a steel frame screwed into the solid wood armrests. There are handholds at the front of the seat that not only prevents the mattress from slipping off. They also help fold and unfold the futon into the couch and bed positions. The backrest and base have a steel grid that supports the weight of the mattress. You can use a single mattress or two halves that will come to lie parallel to each other in the bed position. The armrests mimic the rustic lodge poles. They are a smart addition to your vacation home or property of you like rustic themes and wooden furniture. This bifold frame can be turned into a couch and a fullsized bed. The arms are constructed using northern white cedar logs that will bring longlasting beauty to your home. The high strength to weight ratio of the cedar wood makes it exceptionally durable. In the sleeping position it is 84 inches long, 54 inches wide and 32 inches off the floor. The frame is supported by a 5year warranty. They bring you Vermont, a metal futon frame that is trendy, affordable and easy to use. The versatile futon converts from a sofa to a fullsized sleeper in minutes. The frame is shipped in a box and is easy to assemble. The frame has an easy construction of metal slats to support a single or split mattress.
